Narrative

On 09/02/18 at approximately 0908 hours, I was dispatched to a reported assault at Fairfax Hospital, 10200 NE 132nd St Kirkland WA 98034. Dispatch reported a patient had assaulted an employee at the facility.

Units arrive on-scene, and were met by staff who advised the suspect, [REDACTED], had pushed a door which struck a staff member in the head. Staff advised [REDACTED] had returned to his room, was not continuing to be disruptive, and was being medicated upon our arrival.

Aid personnel responded and advised the victim, facility employee [REDACTED] had a contusion to her head and was being transported to Evergreen Hospital for evaluation. [REDACTED] was brought through the lobby a short time later where I observed a bump on the right side of her forehead close to the hairline. I also noted it appeared she had a split lip. As she spoke with Officer Lisenby and I, [REDACTED] stated she did not wish to pursue charges based on this incident. [REDACTED] made this statement several times during our brief contact.

Fairfax staff provided information for [REDACTED] and indicated he was there on involuntary hold for treatment. Staff were unable to provide [REDACTED] middle initial, and [REDACTED] would not provide any personal information to staff. [REDACTED] was identified through dispatch with the information that was provided. Staff also explained this incident occurred at the nurses station in the north unit of the facility. Staff explained that [REDACTED] had thrown some chairs around and then kicked or pushed open the door to the nursing station, which struck [REDACTED] in the head. Staff explained [REDACTED] then returned to his room and laid down, because he knew staff couldn't do anything to him if he was laying down in his room being cooperative.

I responded to Evergreen Hospital and spoke with [REDACTED] [REDACTED] again advised she did not want an investigation completed, and was not interested in pursuing prosecution against [REDACTED]. When asked, [REDACTED] told me, "He is a sick individual and does not need to be prosecuted." [REDACTED] did not respond to a request to sign a medical release form. Further, [REDACTED] had told the treating nurse she did not want to talk to police and report the incident. When I arrived the treating nurse
